PROFESSIONAL EXPERIENCE

Software Developer Intern — AVICS Pvt. Ltd.

Feb 2025 - Sept 2025

- Built **RESTful APIs** and **Angular** components for AVICS Health (Hospital Management System) using C# and .NET.
- Implemented search algorithms for patient/appointment data, **reducing support queries by 18%**.
- Designed OPD/IPD and Monthly/Annual reports; resolved critical bugs to improve system performance.

PROJECTS

ATMOS Gym — Full-Stack Gym Management Platform

github.com/hsbhatra/ATMOS-Gym-App | atmos-gym-kota-test.netlify.app

Tech Stack: React 18, Vite, Three.js, Node.js, Express.js, MongoDB, Razorpay, Netlify, Render, node-cron

- Implemented **Razorpay** payment integration supporting online and admin-managed offline/cash transactions with installment tracking, using idempotent webhooks and frontend double-confirmation to prevent duplicate processing.
- Engineered a subscription lifecycle system using a **planSnapshot** pattern to freeze plan details at purchase time, preserving historical billing accuracy independent of later plan edits.
- Automated daily membership expiry reminders and lifecycle transitions via **node-cron**, with scheduled health-check pings to keep the service alive on a free-tier host.

Attendify — Real-Time Attendance System

github.com/hsbhatra/Attendify

Tech Stack: OpenCV, Python, SMTP

- Engineered a secure, real-time attendance platform with **OpenCV**-based QR code scanning and validation.
- Implemented 15-second time-sensitive QR codes to prevent proxy attendance and session-based auth.
- Integrated automated SMTP email notifications to confirm attendance records for students and faculty.

URLShrinker — URL Shortening Service

github.com/hsbhatra/url-shrinker-backend

Tech Stack: Node.js, Express.js, MongoDB

- Built a scalable **RESTful** URL shortening service supporting custom slugs and redirection logic.
- Designed unique slug generation algorithm with collision handling and **MongoDB**-based persistence.
- Structured clean API architecture with modular routes, middleware, and error handling.
